

**For those  
who haven't  
heard!**

## **Instrumentation Tubing**

DMV Instrumentation Tubing is produced in the size range from 6 x 0.5 mm to 76 x 2.9 mm ( $\frac{1}{4}$ " o.d. x 0.020" to 3" o.d. x 0.115") mainly from five grades of stainless steel which cater for the majority of specialist industrial needs.

DMV Instrumentation Tubing has many applications in the following major industries:

### **TRANSPORTATION SYSTEMS**

• Automotive • Railway • Shipping construction • Aircraft

### **MECHANICAL ENGINEERING**

• Factory facilities • High pressure applications

**Get the message!**

We are also able to work to all worldwide technical requirements.

To let us resolve your particular problem or to receive more information on our products; please contact a sales office at any of our locations shown here.

***Diversity is our strength***
